WHO WE ARE

A UK software and data consultancy, built to be trusted with the work that matters.

We design, build and support the software and data platforms that public-sector organisations and ambitious businesses rely on — always Microsoft-native, always to standard.

We're a young company with a deeply experienced team. Senior people lead the work, so you get architects, not just coders. For a business, that means software and data that cut cost and remove manual work; for the public sector, secure, compliant delivery and clear value for money. Same team, same standards.

COMPANY FACTS

Registered name	Pixel Fusion Ltd (14585902)
Founded	2023
Headquarters	Grimsby, North East Lincolnshire
Team	27 specialists, UK-based
Platform focus	Microsoft — .NET, Azure, Power Platform, Power BI, Fabric
Certifications	ISO 27001 · ISO 9001 · Cyber Essentials Plus

CAPABILITIES

Six capabilities, delivered Microsoft-native

We build, join up and make sense of software and data — leading with the outcome, not the technology.

CORE TECHNOLOGY

.NET · React · Azure · SQL Server

Power BI · Microsoft Fabric

Power Apps · Power Automate

Azure Machine Learning · AWS

01

Software and platforms

Secure, standards-based bespoke software and legacy modernisation, built to last — accessible to WCAG 2.2 AA and interoperable.

02

Data, BI and warehousing

Trusted data platforms and Power BI reporting that leaders can actually rely on.

03

AI and automation

Governed AI, decision support and automation that removes manual work. The model proposes; your rules decide.

04

Microsoft Power Platform

Power Apps, Power Automate and integration done properly and cost-effectively — digitising manual, paper-based processes.

05

Cloud and hosting

Azure and AWS with UK data residency, strong security and no vendor lock-in.

06

Consultancy and assurance

Discovery-led reviews, technical audits and assurance that de-risk delivery before money is committed.

SECTORS

Public sector and business — the same team and the same standards, shaped around who you are.

Public sector

Secure, compliant, framework-ready delivery — with social value and value for money built in.

Central & local government

Digital services, data and Power Platform — compliant, secure and accessible.

NHS & care

Data engineering and analytics that turn health data into trusted reporting.

MATs, schools & local authorities

MIS integration and governed data platforms for the education sector.

Charity & third sector

Consolidated data and modern platforms for mission-driven organisations.

Business & SME

Software, data and AI that cut cost, unlock growth and keep you ahead.

Data you can't trust

One governed source of truth, and reporting your leadership believes.

Manual processes

Automation and integration that take repetitive work off people's desks.

Legacy systems

Modernised in stages, without stopping the business.

Governed AI

Practical AI with the controls and audit trail you need.

EVIDENCE, NOT ADJECTIVES

Outcomes we can prove

Every figure is attached to a named client. Named referees at comparable organisations are available on request.

NHS Wayfinder

~£37m

HEALTH & CARE · WITH SERVITA

Ingestion and Power BI dashboards that evidenced an estimated £37m saving from reduced missed appointments.

Fuze · Learn Sheffield

40 → 150+

EDUCATION · FUZE

A governed education data platform grown from 40 to over 150 schools, ingesting five million attendance rows a month.

Marie Curie

236M rows/day

CHARITY · WITH ESYNERGY

A Microsoft Fabric platform ingesting around 236 million rows a day into a governed, reportable data estate.

Shipergy

100k+

COMMERCIAL · AI

An Azure ML model over 100k+ records and 100+ properties, predicting fuel energy content to guide procurement.

Learn Sheffield

"Pixel Fusion have supported Learn Sheffield in delivering modern, accessible digital platforms that strengthen how we communicate, govern and engage with over 150 schools across the city. Their structured project management and collaborative approach have given us confidence at every stage of delivery."

Stephen Bett · CEO, Learn Sheffield

SELECTED CLIENTS

Trusted by public and private sector clients

From central government and the NHS to national charities and growing commercial businesses.

Department for Transport

Delivery for central government, under departmental security and assurance requirements.

Graham Windham

47 automated processes that removed a single point of failure, taking critical back-office work off one person's desk.

Ascend

A secure, efficient payroll and document platform — the operational backbone of a managed payroll business, built and supported.

Fuze, with Learn Sheffield

Attendance and outcomes across 150+ schools, grown from 40, with 5M+ attendance rows a month through Wonde and direct MIS APIs.

Environment Agency

Modernising the South East Soil Moisture Model — run weekly since 1998 — from Excel/VBA and Access to Python and managed databases on the Agency's Central Modelling Platform.

ALSO DELIVERED FOR AND ALONGSIDE

esynergy · dunnhumby · audionetwork · Crisis · Marie Curie

APPROACH

Discovery before anything is built

We de-risk up front with sign-off gates, so cost and scope surprises never reach you late.

STEP 1 · DAY ONE

Talk to us

A short, senior-led conversation — or a free systems and data health check. A straight answer within a day.

STEP 2 · 2–3 WEEKS

Fixed-price discovery

An architect scopes the problem, the options and the cost before you commit to a build.

STEP 3 · 6–10 WEEKS

First release

Something real in users' hands, then iterate in short, visible cycles.

STEP 4 · ONGOING

Support and improve

Support and enhancements under your agreed SLA, by the people who built it.

Architect-led

Architects lead delivery from day one — you're not handed a team of juniors.

You own the IP

Your code and IP are yours from the first commit, in your repository.

Accessible by default

Built and tested to WCAG 2.2 AA, with an accessibility statement supplied.

Outcomes that pay back

Cost cut, time saved and growth unlocked — quantified, with named references.

NOT SURE WHERE TO START?

Free systems and data health check

Cost	Your time	Turnaround	You receive
Free	**One 60-minute session**	**Two weeks**	**A written report**

ASSURANCE

A safe pair of hands — with public money or your own

Independently certified, fully insured and screened to the last person. Certificates and policies are available on request.

HOW WE KEEP YOU SAFE

Information security

ISO 27001-governed, risk-managed and continually audited.

Personnel security

Every member of staff is BPSS & BS7858 screened.

Data protection

UK GDPR by design — RBAC, encryption, audit logging and UK data residency.

Secure development

Secure-by-design, peer code review and CI/CD on every build.

Business continuity

Automated backups, disaster recovery and tested recovery plans.

Quality management

ISO 9001 processes so delivery is consistent and repeatable.

Fully insured

Professional Indemnity, Public Liability, Employers' Liability and Cyber cover — certificates available on request.

OUR PEOPLE

Senior people, close to the work

Directors who architect and stay hands-on, backed by a leadership team across engineering, data, delivery and people — 27 UK-based specialists in all, every one BPSS & BS7858 screened.

Gareth Heggie

Director · Head of System Architecture

Architecture and bid delivery; 16+ years across .NET, React and Azure.

Joshua Stevenson

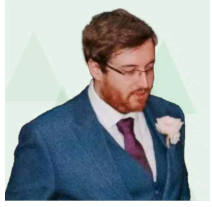
Head of Data Architecture

Data architecture lead on the Marie Curie platform; SQL, Power BI and Microsoft Fabric.

James Ritchie

Head of Engineering

10+ years; leads our technical audits and security improvements.



Scott Mahoney

Senior Full-Stack Engineer / Lead Architect

Fintech and education; lead architect on the Graham Windham build.

Richard Rowell

Director

30+ years as an innovator and entrepreneur; founder of Ascend payroll.

Mike Corrigan

Head of Software & Data Engineering

30+ years; Oracle and PL/SQL; aviation and education data.

Jenny Heggie

People & Delivery Manager

Runs delivery and people — keeping engagements on track.

Alice Ward

Project Manager

12 years in the education sector; discovery and delivery.

SOCIAL VALUE & ESG

Value beyond the contract

The social-value commitments public buyers score — and the responsibility a values-led business wants to see in the people it works with.

WELLBEING

Real Living Wage

An accredited Living Wage employer.

EQUAL OPPORTUNITY

Disability Confident

A Disability Confident member.

EQUAL OPPORTUNITY

Equality, diversity & inclusion

A written EDI and equal-opportunities policy.

FIGHTING CLIMATE CHANGE

Carbon Reduction Plan

Published to PPN 06/21 — Net Zero by 2050.

ECONOMIC INEQUALITY

Local economy

Around half our developers are Lincolnshire-based, and we prioritise local SME suppliers.

WELLBEING

Community

We support WYK Digital, helping under-represented people into tech careers.

ECONOMIC INEQUALITY

Early careers

Undergraduate summer placements, moving to annual with roles on graduation.

ECONOMIC INEQUALITY

Responsible supply chain

A published Modern Slavery statement, though below the turnover threshold.

FIGHTING CLIMATE CHANGE

ISO 14001 — in progress

Environmental management certification targeted within 18 months.

PROCUREMENT

Easy, compliant routes to engage us

We'll help you find the simplest compliant way to work with us — and tell you if a direct award isn't the right call.

HM Government
G-Cloud
Supplier

ROUTE 1

G-Cloud

Compare our service definitions and pricing on the Digital Marketplace and award directly — no further competition or full tender.

ROUTE 2

Frameworks & tenders

We respond to tenders and further competitions, as prime supplier or as a specialist partner to an incumbent.

ROUTE 3

Direct engagement

Start with a fixed-price discovery or a proof of concept below threshold, then scale with confidence.

Our buyer pack includes

— G-Cloud service definitions and pricing
— DPIA template and draft data processing agreement
— Insurance certificates (PI, PL, EL and Cyber)
— EDI policy and accessibility statement
— Completed standard security questionnaire
— ISO 27001, ISO 9001 and Cyber Essentials Plus certificates
— Carbon Reduction Plan and Modern Slavery statement
— Named referees at comparable organisations

PixelFusion

Let’s talk about your next project.

A short, senior-led conversation — or a free systems and data health check. No hard sell.
